What women who use the Bible + their Brain to reach the impossible know...

We know we have to teach ourselves what’s possible.

We know the difference between success, happiness, and bein
a good person.

We know that life is 50/50.

We know failure is the price of success.

We know we don’t get the how until we’re there.

We know it’s not better there than here.

We know we are already 100% worthy.

We know it’s hard, and we can do hard things.
